SCHICK ELITE SENSORS have set the standard for simple, reliable digital intraoral imaging. Thanks to its robust, proprietary CMOS-APS platform, Schick Elite is an intelligent, affordable option for dental practices of every size. Featuring three sensor sizes, interchangeable cables, as well as WiFi and USB connectivity, Schick Elite is designed to grow along with your needs. NOW THAT’S INSPIRING.

CONVENIENCE AND FLEXIBILITY COMBINE FOR AN ELITE EXPERIENCE.

SCHICK ELITE FEATURES

- 3 sensor sizes meet the needs of every patient
- Interchangeable cable technology
- Enhanced freedom of movement with Schick WiFi connection option
- Compatible with Schick AimRight Positioning Systems
ELITE DESIGN.

Designed based on input from dentists, Schick Elite offers a level of convenience, durability and flexibility that remains unmatched today. With an optimally located sensor cable interface and a color scheme that ensures high visibility of the oral cavity, Schick Elite makes it easy to diagnose. In addition, the three sensor sizes guarantee a comfortable fit for patients of all ages, while ensuring proper placement for optimal imaging.

ELITE FLEXIBILITY.

In addition to reliable USB connectivity, you can harness the power of Schick WiFi to offer a level of flexibility and freedom of movement that’s unmatched. That’s because it offers the ultimate in hot swappability, allowing you to move quickly and easily between operatories without having to drag cables and computers along.
