Fax: (847) 685-2082

## “INNOVATIONS IN PERIODONTICS AND DENTAL IMPLANTS” PRESENTED BY: DR. DOROTHY ANASINSKI

Dr. Anasinski completed her residency in Periodontics at Northwestern University, D.D.S. degree from Loyola University, and R.D.H. Degree from William Rainey Harper College. She has been in full-time practice for 14 years, and is Clinical Assistant Professor in the Periodontal Postgraduate department at University of Illinois College of Dentistry in Chicago. She has been active in the local and state dental associations. She is Treasurer for the North Suburban branch of the Chicago Dental Society, Vice President of the Polish American Medical Society, President of the North Shore Women Dentists Society, and served as Delegate for the Illinois State Dental Society. She has lectured and written several articles on topics in Periodontology. 8 years ago, she developed the Dental Study Club within the Polish American Medical Society and provides 5-6 Continuing Education Programs per year.

### Course Description & Objectives:

- Learn New Advances in Periodontal Instrumentation for Predictable Root Debridement
- Increase Awareness of New Prevention and Treatment Strategies Based on the Control of the Inflammatory Response
- Apply the Current State of Information Relative to the Use of Local Antimicrobial Agents and Adjunctive Therapies to Enhance Conventional Therapies in Management of Periodontal Disease
- Become Aware of the Technology of Piezosurgery and How it can Reduce Intra-Operative Complications
- Learn Evidence and Uses of Lasers in Periodontics
- Recognize Periodontal Procedures to Enhance Orthodontic Tooth Movement
- Increase Awareness of Periodontal Plastic Surgery Techniques to Enhance Esthetic and Restorative Procedures
- Learn How Computer Guided Implant Planning can Enhance Accurate Pre-Surgical Planning and Precise Placement
- Understand Periodontal Biologic Principles in Restorative Treatment
- Learn Buccal Plate / Socket Preservation Techniques
- Identify Various Techniques in Implant Site Development for Optimum Aesthetics
- Understand Current Clinical Concepts of Implant Loading
- Review Emerging Information on Key Factors in Long-term Implant Success

**LOCATION:** Café La Cave Restaurant      **DATE:** Friday, November 20, 2009  
2777 Manheim Road  
Des Plaines, IL 60018      **TIME:** 6:30pm – 9:30pm  
(847) 827-7818
