

POLISH AMERICAN MEDICAL SOCIETY DENTAL STUDY CLUB

PRESENTS: **DR. YAN RAZDOLSKY**

“Most Effective and Efficient Orthodontic Treatment Modalities”

Dr. Yan Razdolsky received his D.D.S. at the University of Illinois in 1985 and completed graduate studies in Orthodontics from the same institution in 1987. Dr. Razdolsky is a Diplomat of the American Board of Orthodontics. He lectures throughout the United States and internationally. He is an award winning doctor who has had numerous publications. He is also the inventor and patent holder for the *Razdolsky Distraction Osteogenesis Device (ROD Appliance)* used for mandibular and maxillary lengthening, alveolar ridge regeneration, eruption of ankylosed teeth, and distraction of implants. His practice, which he started over 20 years ago, Forever Smiles, is located in Buffalo Grove and Grayslake.

Course Objectives

To learn updates on the following orthodontic treatments modalities for more effective and efficient treatment plans for your patients:

- ◆ **SureSmile and Wilkodontics** – *Increase awareness how these procedures shorten the time your patients wear braces and provide enhanced treatment results*
- ◆ **ICat 3D Cone Beam** – *Learn emerging 3D imaging techniques for accurate orthodontic records*
- ◆ **Interceptive Techniques** – *Learn early orthodontic detection of problems and diagnosis for young children*
- ◆ **Lingual Orthodontics** – *Become aware of techniques for Concealed Braces*
