LEAVE CONFIDENT AND SMILING...

From the moment you enter Dr. Zaibak's office, you are surrounded by soft colors, relaxing furniture, beautiful artwork and soothing music. It's more like going to someone's home than to a dentist's office. At the Zaibak Center for Aesthetic Dentistry, patients are pampered. On-site amenities include a variety of gourmet hot beverages, movies, music and chair massages during treatment. All dental operatories are equipped with LCD monitors, cable TV and the latest essentials in communication technology used in every step of treatment. This keeps patients entertained, relaxed and knowledgeable at every step, but most importantly—leaves them confident and smiling at the final results.
