If you do not have a dental home, we at Allison Family & Cosmetic Dentistry will welcome you into our family of patients. Give us a call at 919-806-1996 to schedule an appointment

INVISALIGN

The Invisible way to straighten teeth

Invisalign is a virtually invisible solution so you can smile during as well as after treatment. In fact, virtually no one will know you're wearing them unless you tell. By using a series of clear, removable aligners, Invisalign straightens your teeth right before your eyes. Change them about every two weeks and your teeth will move—little by little—toward the smile you have always wanted

Invisalign is comfortable to wear and it doesn't require you to change your busy lifestyle. You visit us every month or two to check your progression and get new aligners. Average treatment time is only about a year. Because aligners are removable, you can continue to eat your favorite foods while brushing and flossing normally to keep your teeth and gums healthy.

	Invisalign	Traditional Braces
Invisible	YES	No
Removable	YES	No
No metal or brackets to irritate the mouth	YES	No
Able to brush and floss normally during treatment	YES	No
