Welcome from the President - Dr. Douglas Auld

Welcome to the 2012 ODA Annual Meeting in Oklahoma City!

This year has been an amazing year for me as ODA President. I want to thank all those who have put in so much effort to make this Annual Meeting such a great event. Dr. Justin Beasley, as Annual Meeting Chair, and Dr. Sid Nicholson, as CE Chair, have worked incredibly hard to make this Annual Meeting one of the most exciting and scientifically interesting events we’ve ever had.

We have spent this last year creating “A Legacy Through Collaboration”. Members across the state came together to help pay off the building mortgage - which was my main goal this year. Dental professionals and lay volunteers showed up by the hundreds to support our first rural Mission of Mercy. You have truly given of yourself, as we all worked together, to leave a legacy this year. I sincerely thank you.

We have such a great profession! During these next few days, take time to renew relationships as it is our collaborative efforts that strengthen us. Take time to go listen to the great line-up of speakers we have available during staggered times on Friday and Saturday. ODA LIVE! this year means “live” patients. Learn about bone grafts and mini-implants during these special sessions on Friday in the Exhibit Hall.

Please plan now to spend time in our Exhibit Hall. The Exhibit Hall will open earlier and stay open later. A concession stand offering breakfast and better lunch options will be open for you. On Friday evening, please plan to participate in the OUCOD/ODA New Dentist Reception being held in the Exhibit Hall. Immediately following the reception, bring the whole family to cheer on the OKC Redhawks for ODA Night at the Ballpark.

I have enjoyed my year as President of the Oklahoma Dental Association and hope you will come celebrate with me at the President’s Dinner on Saturday evening. Like last year, we will honor our ODA Award Recipients. It will be an amazing evening of dinner and dancing to The Stars. I hope to see you there.

Douglas Auld, DDS
President, Oklahoma Dental Association

The AGD CE# for reporting purposes is 219266.

The Oklahoma Dental Association has put forth every effort to select speakers and topics that should reflect current and scientifically accurate information. As such, by virtue of your attendance at the meeting, you acknowledge that any and all actions taken by you based upon such topics, speakers and presentations are taken at your own risk, and you further agree to hold the ODA harmless from any and all liability in relation to the same. The ODA encourages you to make your own independent judgment as to the topics, speakers and presentations, and to rely on the advice of professionals, as appropriate, in making decisions in relation hereto. The ODA does not certify competence or endorse performance of any skills taught during these courses. Furthermore, these courses do not supersede independent medical professional judgement.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during the presentation.

Evaluation Forms will be provided for each CE session with an attached Oklahoma Continuing Education Reporting Card. Please complete the evaluation and CE card and submit both to the ODA Booth located in the Exhibit Hall or mail to: Oklahoma Dental Association, 317 NE 13th Street, Oklahoma City, OK, 73104.

For out-of-state practitioners, it is the responsibility of the individual attendee to submit any necessary continuing education credit documentation to their individual state for verification. The Oklahoma Dental Association is an ADA CERP recognized provider of continuing education.
Welcome to the 2012 Oklahoma Dental Association Annual Meeting, “A Legacy through Collaboration.” This year’s meeting provides you and your staff a full slate of education and product exploration that is complemented by an exciting schedule of special events.

The Annual Meeting Planning Committee has been working diligently to assemble a vast array of well-known and versed speakers to stimulate and energize both you and your team members. The Exhibit Hall has been expanded and improved to showcase the latest in dental procedures and technology. Opportunities for camaraderie with colleagues consist of an OUCOD/ New Dentist Reception, ODA Night at the Bricktown Ballpark, and the annual President’s Dinner.

The ODA is proud to provide the entire dental profession with the opportunity to experience the most innovative technologies and learn from many of the most acclaimed health care professionals. Educational programs address an array of topics, including the latest in clinical dentistry and practice management, presented in a variety of formats: lecture, round-table presentations, hands-on workshops, and live patient procedures demonstrated in the “ODA LIVE!” courses.

Many thanks go to the hard working volunteer members of the Annual Meeting Planning Committee (listed on the right), and the ODA staff who dedicate their time and energy to creating a unique and rewarding experience for all of our attendees.

Thank you for joining us at the ODA’s Annual Meeting. We anticipate that you will have a wonderful and enriching experience in Oklahoma City, and we hope you will become an annual attendee like so many others.

Justin L. Beasley, DDS
ODA Annual Meeting Chair

Join the Member’s Only group on LinkedIn!
The Oklahoma Dental Assistants Association would like to cordially welcome you to our Annual Meeting. We are looking forward to a very informative time with you at a variety of exciting Continuing Education sessions that have been designed to answer questions and explain more about various technologies and issues that we use daily in our practices. Starting Friday April 27, we also look forward to meeting some of your Continuing Educational needs.

Our Mission Statement is: “Advancing the career of Dental Assistants and promoting the Dental Assisting profession in matters of Education, Legislation, Credentialing, and Professional Activities which enhance the delivery of quality health care to the public.”

With this in mind, we would like to invite every dental assistant and student to join us at this awesome time towards advancement in our profession. Look forward to meeting our National President, Ms. Claudia Pohl, who will be visiting some of our Dental Assisting schools. We are proud to announce the formation of a Student Chapter. This is a good time to see what is in the works for our students in the future. Feel free to add your input. It takes all of us to build our profession!

Sherri M. Lewis, CDA
State President, Oklahoma Dental Assistants Association

What are QR codes?
QR (short for “quick response”) codes are 2D barcodes that can be scanned and read by smart phones. The ones in this program will direct you to a website where you will find the speaker’s handout.

How do you scan a QR code?
Just pull out your smart phone and use any free app for scanning QR codes. In your app store, search “QR code reader”.

Once you scan or snap a picture of the code you will automatically be redirected to a web page.

We hope you enjoy this new technology at the 2012 Annual Meeting!

Keynote Speaker - Opening Session

Byrd Baggett
Dare to Grow - How to Build Relationships That Last
One (1) Hour of CE Available
FRIDAY
8:30 AM - 9:20 AM
Lecture format
Recommended for ALL Annual Meeting Attendees!

In this high-energy presentation, Byrd will inspire you to live in the present while personally challenging yourself each and every day to go the extra mile. The life lessons and professional values you will learn at this presentation are invaluable.

Most teams and families have challenges, whether it’s a management change, a merger, or simply communication. These inevitable challenges are having a devastating effect on performance and profitability. Byrd helps people deal with one of the most prevalent problems in today’s fast-paced, high-tech world – disengaged teams. Whether your team is in the boardroom or the family room, you will benefit from learning Byrd’s insights and strategies to improve relationships.

He encourages individuals to become self-motivated while challenging them to step up to the plate of personal responsibility. The result is an atmosphere of cooperation, creativity, and innovation that permeates an entire organization or family.

During this course, attendees will learn:
Byrd’s mission is to reconnect individuals by teaching them the skills essential to developing relationships that stand the tests of time and change. He will challenge us all to take responsibility for our own futures and forge a path to personal success.

Get your very own Pierre Fauchard statue today!

With a gracious donation of his time and talent, Oklahoma Dental Association’s own, Dr. Gary Gardner, sculpted a beautiful statue of Pierre Fauchard. This bronze statue, titled “Father of Dentistry”, stands 18 inches tall and would make a nice addition to your home or office. Of the seventy-five sculputed, only a few are left, so hurry and place your order today!

For just $1,400 the “Father of Dentistry” statue could be yours!

To order contact the ODA at 800-876-8890 or pforders@okda.org.

Together, we’re changing the face of Oklahoma’s oral health.

Delta Dental of Oklahoma
ORAL HEALTH FOUNDATION

Dental is our only focus. As a result, we have the largest dentist networks, the most members and are the #1 dental benefits company in America (and have been since developing dental benefits in 1955). We’re also locally headquartered to better care for you and your patients. And perhaps most importantly, we’re a not-for-profit company uniquely positioned to put care first and place people before profits.

We provide free children’s oral health education in our schools, fund dental student scholarships at the OU College of Dentistry and support free/low-cost clinics across the state - providing vital care to those in need. In fact, we again sponsored the Oklahoma Mission of Mercy (OKMOM), the largest free dental event in Oklahoma history.

Why? Because we believe that where the need is great, the giving must be even greater.

But we know none of this is possible without you - our participating dentists and staff. Because of you and your willingness to give back to those less fortunate, we are succeeding in our mission to one day improve the oral health of every Oklahoman.

On behalf of all the employees of Delta Dental of Oklahoma and our Oral Health Foundation, we take this opportunity to say “thank you” for all you do every day to help our state smile brighter.

Anatomy of Mandibular & Maxillary Local Anesthesia

Three (3) Hours of CE Available

FRIDAY
10:00 AM - 1:00 PM
Lecture format
Recommended for dentists and hygienists

This course is designed to enhance the safe and effective use of maxillary and mandibular local anesthesia. The course will discuss block injections, inadequate anesthesia, supplemental innervation, and alternative routes such as Gow-Gates, Akinosi, intraosseous, and interligamentary routes. Evidence to support a concept of multiple inferior alveolar nerves will also be discussed.

Course Objectives:
• Review the anatomy of the “traditional” routes for administering local anesthetics in the maxilla/mandible
• Study the anatomy of alternative routes such as Gow-Gates, Akinosi, intraosseous, interligamentary, and supplemental
• Learn and better understand anatomical complications with local anesthetic injections in the head region
• Become skilled at avoiding and managing complications

Complications & Concerns with Dental Local Anesthesia

Three (3) Hours of CE Available

FRIDAY
2:30 PM - 5:30 PM
Lecture format
Recommended for dentists and hygienists

A profound myth in the induction of dental local anesthesia involves the perceived benign nature of dental local anesthetic injections and solutions. This course will consider the anatomical basis of complications resulting in less than optimal local anesthesia, and complications such as nerve trauma, vascular injury, etc.

During this course, attendees will learn:
• A good comprehension of the anatomical complications possible with local anesthetic injections in the head region
• How to avoid anatomical complications such as nerve injury, hemorrhage, trismus, facial paralysis, etc.
• How to manage complications subsequent to anesthetic injury both physical and/or chemical

Endorsed provider for

Your mission is keeping people healthy.

Ours is doing the same for your bottom line.
Implant dentistry is growing as a treatment option accepted by patients. The changing technology and research can be overwhelming to all involved in implant dentistry. Long-term implant success is dependent on many factors. Understanding the health and disease process is important when developing long-term treatment plans. This course will review current concepts, techniques, and procedures related to implant dentistry. Additionally, attendees will review the research related to implants in health and disease, and help attendees develop strategies to enhance patient success rates.

Course Objectives:
Communicating Implant Dentistry to Your Patients
• Develop an appreciation for the role of implants in the maintenance of health
• Understand implications of tooth loss
• Explore the current demographics of tooth loss in the United States
• Review methods to incorporate implants into practice
• Discuss patient barriers to treatment to encourage acceptance

Medical Conditions and Risk Factors Affecting Implant Therapy
• Review of patient health and dental histories
• Understand certain disease processes affecting implant therapy
• Learn considerations and contradictions to implant treatment
• Review of pharmaceutical considerations
• Develop interaction with other clinicians for patient review

Implant Assessment and Evaluation
• Current research related to implant failures
• Implants in health and disease
• Review of causative factors for implant bone loss and peri-implantitis
• Criteria for success
• Patient evaluation, assessment, and education
• Patient health and wellness considerations

Maintenance and Long-Term Success Strategies
• Professional care, responsibilities and risk management
• Evaluation and recording of peri-implant tissues and superstructures
• Implant/tissue interface and probing
• Evaluation and care of prosthesis
• Clinical and/or radiological evaluation and considerations
• Review of literature related to armamentarium safety and efficacy
• Therapeutic maintenance procedures and techniques
• Chemotherapeutic adjuncts
• Patient education and motivation
• Home hygiene aids; selection and instruction
• Management of implant complications and failures

Great course for hygienists!
Harald Heymann, DDS, MEd
Bread & Butter Adhesive & Restorative Dentistry
Six (6) Hours of CE Available
FRIDAY
9:30 AM - 12:30 PM & 2:00 PM - 5:00 PM
Lecture format
Recommended for dentists and assistants

This course will provide vital information for the general practitioner.

Course Objectives:
- Dental adhesives: separating fact from fiction
- Dentin desensitization techniques: what really works

During this course, attendees will learn:
- Abfractions: causes and treatment
- Flowable composites: pros and cons
- High-tech composites: Nanofilled and/or low shrinkage
- White spot removal: ACP, microabrasion, macroabrasion, and partial veneers
- Chemotherapeutics and probiotics: how best to manage the high-risk patient
- Posterior composites: how to avoid problems
- The metal-free practice: oh, really?
- Pulp capping: what really works
- Tooth whitening: what works best
- Porcelain veneers: how to make them last

David Wong, DDS
ODA Live! Innovations in Soft Tissue: Practical Techniques and Materials That Work
Two (2) CE hours
FRIDAY - 10:00 AM - 12:00 PM
Lecture with a live patient including close-up cameras and large screens!
Recommended for dentists

Soft tissue grafting is rapidly playing a larger role in restorative, esthetic, and reconstructive dentistry. While conventional grafting techniques have several limitations, newer grafting materials and techniques make it easier for patients to say “yes” to the treatment they truly need and desire. In this course, Dr. Wong will perform a LIVE demonstration using Perioderm to correct a gingival recession defect. Soft tissue allografts are quickly becoming a “game changer” in dentistry, making optimum dentistry more than an ideal... it’s a reality.

Course Objectives:
- Accurately define soft tissue defects and identify common periodontal issues
- Understand the periodontal complications of soft tissue defects
- Review both classic and current techniques to treat soft tissue defects with periodontal plastic surgery
- Define the goals of periodontal plastic surgery and keys to success
- Coordinating perio-restorative concepts in a TEAM approach
- Practical approaches (time, money, predictability, pain)
- Demonstrate a LIVE surgery utilizing Perioderm, a human acellular dermal graft

Sid Nicholson, Jr., DDS
ODA Live! Mini Implants
Two (2) CE hours
FRIDAY - 2:00 PM - 4:00 PM
Lecture with a live patient including close-up cameras and large screens!
Recommended for dentists

With the latest technology in dental implantology, Mini Dental Implants may be the answer to many denture problems. These can be put in place in about an hour with no cutting of the gums and no stitches to be removed. This unique procedure can be completed in one visit with virtually no discomfort. The new Mini Dental Implant technology offers a simple and affordable approach.

Course Objectives:
- Learn how to place mini-implants
- Learn tips and techniques of the procedure
- Learn top mistakes and how to remedy them

DENPAC SILENT AUCTION & WINE PULL

This year’s DENPAC Silent Auction is something you DO NOT want to miss! We have many fantastic auction items just waiting for YOUR bid!

Where & when: The auction will be held in the middle of the Exhibit Hall. Numerous organizations and individuals have donated a wide range of goods that will be available for purchase via silent auction. The Silent Auction will open at 7:00 AM on Friday morning and will close at 1:30 PM on Saturday.

Come take a chance at the Wine Pull table. You could win a bottle of Dom Pérignon champagne! Donate $40 to DENPAC and get a chance to ‘pull’ a bottle of wine. You may be pleasantly surprised to pull a bottle of wine with a much higher value!

Stop by the auction for a FREE bag of popcorn!!

If you become a member of OKCapitol Club, a DENPAC Board Member will shine your shoes! $300 will get you elite DENPAC membership and get a good polish on your footwear!

Support your PAC by bidding on an item TODAY!

Train for a new career in less than a year.

Become a Dental Assistant!

Receive hands-on training:
- Patient care
- Laboratory duties
- Dental charting
- Chairside functions
- Practice in clinic at OU Dentistry

College Prerequisite:
- High school diploma or GED
- 18 years old
- CPR for Health Care Providers

Full program tuition: $2,875

CPR for Health Care Providers
Three (3) CE hours
Two Sessions Available
Lecture/Hands-on/Q&A
Recommended for the entire dental team

FRIDAY
10:00 AM - 1:00 PM
SATURDAY
9:30 AM - 12:30 PM

Is it time to renew your CPR certification? For dentists and hygienists, proof of a CPR course completion is required at least once in each CE reporting cycle.

- Limited to 30 people each course
- Hands-on format recommended for the entire dental team
- Please bring your current CPR card with you to class
- Pre-registration is required

Tickets are $91 and available at Registration while supplies last.

We can help you implement a wellness program to educate patients and motivate them to comply with oral care.

Trina Wheeler
Henry Schein Sales Consultant

“To implement a Wellness Program in a practice, I start by meeting with the team to review the ways oral health affects overall health and share the latest statistics on periodontal disease, oral cancer, heart disease, and diabetes. Then we use the Total Health materials to create a system of educating and motivating every patient to improve health and accept treatment.”

WELLNESS

We do that!

• Wellness presentation to engage the dental team
• Oral Systemic information to share with patients
• Decrease cancellations and increase treatment acceptance
• Improve patient health

To discuss Wellness or other practice-enhancing solutions:
Contact your local Henry Schein Sales Consultant or call 1-800-372-4346 (PROMPT 6)
Visit www.HenryScheinWeDoThat.com
You are invited to the ODA Rewards Reception during the Annual Meeting!

For the entire dental team!

Presented by:

New this year! The ODA will be hosting a free Reception for dentists and front office staff to meet, first-hand, with ODA Rewards Partners (formerly Endorsed Products & Services) about the products and services they provide to help your dental office run smoother and cheaper.

When: SATURDAY - 12:00 PM – 2:00 PM - During the lunch break of Cathy Jameson’s CE session
Where: Cox Convention Center, Rooms 16, 17 & 18
Why should I attend?: Come mingle with the ODA Rewards Partners and learn how your office can benefit from incorporating these products and services into your office. Learn about the great values and customer service that the ODA Rewards Partners provide!

Participating ODA Rewards Partners:

Create Your Own MODEL OF SUCCESS

LECTURE FEATURING CATHY JAMESON

The success of your practice is in direct proportion to the success of your systems. For an outstanding practice, keeping all the systems streamlined and effective is critical to the bottom line of your success. Cathy will outline these systems and provide strategies for achieving your model of success in this power-packed presentation during the Oklahoma Dental Association State Meeting.

Join Cathy for this outstanding CE opportunity during the ODA Meeting on Saturday, April 28th 9:00am - 5:00pm (Break from 12:00pm - 2:00pm)

Creating Your Model of Success  
Six (6) Hours of CE Available  
SATURDAY  
9:00 AM - 12:00 PM & 2:00 PM - 5:00 PM  
Lecture format  
Recommended for the entire dental team

The success of your practice is in direct proportion to the success of your systems. For an outstanding practice, keeping all the systems streamlined and effective is critical to the bottom line of your success. Systems of communication and teambuilding; systems of scheduling, financing, and practice building; and systems for integrating patients into your practice and motivating them to proceed with necessary and desired treatment, thus increasing case acceptance. These are all critical factors in the business of dentistry and in your practice development. Join Cathy as she outlines in a power-packed presentation the vital components for your model of success.

Course Objectives:
• Discover the foundation to success
• Strategic Planning/Goal Accomplishment and how to make this proven system work for you and your practice
• Communicate your way to success with skills that will increase your case acceptance to 90-95%
• Develop a strong dental team focused on results for your patients and your practice
• Implement your practice management systems so you can execute a smooth-running, profitable business
• Provide stunning professionalism and charismatic service to your patients
• Organize your scheduling for smooth-flowing, well organized days
• Combine your advanced technological, clinical and management skills to take your practice to the next level

Stillwater National Bank
From the New England Journal of Medicine to Ladies Home Journal, the last decade has seen an explosion of published information related to the interactions between oral and systemic health. Our patients are reading and hearing this information, and they want to know how it relates to their own health. When the patient says, “I read that my gum disease could be bad for my baby (or my diabetes, or my heart); is that true?” we need to be able to answer the question based on the evidence. This lecture will review the links between oral health and commonly encountered systemic conditions such as osteoporosis, diabetes, cardiovascular diseases, and pregnancy. The purpose of the lecture is to translate knowledge gleaned from medical and dental research into the everyday world of dental practice.

**Course Objectives:**
- Be familiar with the emerging concepts of periodontal diseases as they relate to other inflammatory diseases
- Comprehend the influences of systemic conditions such as immune compromise, diabetes, and osteoporosis on periodontal health
- Know how inflammatory periodontal diseases may impact cardiovascular health, the clinical course of diabetes, and pregnancy outcomes

---

Kyle Sweet, Esq.
**ODA Lunch & Learn**
**Ethics for the Dental Team**
**1.5 CE hours**
**SATURDAY**
12:30 PM - 2:00 PM
Lecture format
Recommended for the entire dental team

Obtain your Ethics CE requirement with this specialized presentation on “Ethics for the Dental Team” by Kyle Sweet of Sweet Law Firm. This course is important for the entire dental team and will be held during a plated lunch scheduled in between your other CE courses.

Sweet Law Firm represents physicians, dentists, nurses, hospitals, and other health care providers in catastrophic injury claims, professional negligence claims, administrative actions, licensing agency investigations, board complaints, Medicaid fraud investigations and claims, Medicare fraud investigation and claims, and employment law claims. It also conducts extensive continuing education for healthcare providers.
The general practitioner can provide both implant placement and restoration. This course will help the general practitioner learn the basics of implants and their placement.

Course Objectives:
- Proper patient selection for prosthodontic procedures including immediate placement of restorations
- Knowledge of anatomy as it directly relates to success, safety, and predictability
- Development of grafting site, including use of membranes, allografts, and soft tissue development

Thomas McGarry Jr, DDS
Hands-on Implant Placement - Limited to 20 attendees - ticket required
Three (3) Hours of CE Available
SATURDAY
2:00 PM - 5:00 PM
Hands-on
Recommended for dentists

This hands-on course will instruct the general practitioner in proper angulation of dental implants through the use of model-based surgery. This introduction to dental implants will allow the clinician to decide if he/she wishes to pursue further education in implant placement.

During this course, attendees will learn:
- All aspects of an implant motor
- Proper drilling speeds
- Instruments used for placement of implants

"Alexander & Strunk is a wonderful company to do business with, from top to bottom. They provide a service second to none and do it with a smile. We have all of our office policies with them as well as our home and cars. Anytime we need anything from Alexander & Strunk they are there for us with the right answers. I thoroughly enjoy doing business with Alexander and Strunk."

Dental Assistant Kaleidoscope
(2.5) Hours of CE Available
FRIDAY
9:30 AM - 12:00 PM
Once again, the Oklahoma Dental Assistants Association will have presentations from different representatives of the dental field. Our focus this year will be on Infection Control. Have fun in this program filled with information, product samples, and door prizes. We will be sharing ideas with other dental assistants, learning about new products and technologies, and discovering ways to improve patient care.

Terrisa Singleton
The Impact of Benevolent Dentistry in Oklahoma
Three (3) Hours of CE Available
FRIDAY
2:00 PM - 5:00 PM
Charitable dental clinics and programs play a vital role in the health care safety net in Oklahoma. During this presentation you will learn about the various benevolent dental programs throughout the state and how you can help connect underserved patients to the care they need. You will also learn what you can do to help existing programs, and how to establish a new program to meet the unmet needs of a specific group or region.

Kyle Burden & Jessica Legut
Oral Implants
Three (3) Hours of CE Available
SATURDAY
9:00 AM - 12:00 PM
Learn about the history of oral implants, the modern forms of oral implants, implant uses and applications, and prosthetics of oral implants. Also, learn about bone and membranes in relation to oral implants.
During the ODA President’s Dinner on Saturday evening, we are proud to recognize the following ODA members for their contributions to dentistry in Oklahoma and their communities. We hope you will attend the President’s Dinner and support your friends and colleagues who have given so much to the profession. The 2012 ODA award winners who will be recognized during this year’s President’s Dinner are:

**James A. Saddoris Lifetime of Leadership Award**
Dr. Allen Keenan

**Dentist of the Year**
Dr. Krista Jones

**Young Dentist of the Year**
Dr. Kathy Henry

**Thomas Jefferson Award for Citizenship**
Dr. Michael Spradlin

**Robert K. Wynne Award for Dental Education and Public Information**
Dr. Tamara Berg

**Dan E. Brannin Award for Professionalism and Ethics**
Dr. Stephen Glenn

**Richard T. Oliver Legislative Award**
Dr. Krista Jones

**Benjamin Franklin Scroll Award**
Drs. Larson Keso & Frank Miranda

**President’s Leadership Award**

Resources for Dentists:
- Curriculum and ideas on the ODA website
  (www.okda.org)
- Lesson plans tailored to four different age levels
- A brand new curriculum is being developed now!
- Resources at the schools to help dentists discuss oral health:
  • Teeth Model & Toothbrush
  • Dental Care for Children Tear Pad
  • Pearly Whites Dental Health Game
  • The Gross, Disgusting & Totally Cool Mouth Book
  • Ready, Set, Brush!
  • Foam Tooth Model
- The Oklahoma Dental Foundation’s Mobile Dental Care Unit, which is no cost to the school or dentist.

For more information or to be a part of the Adopt-a-Dentist program, contact the ODA at 405-848-8873 or email lmiller@okda.org.

ARE YOU ADOPTED?

Be a part of the ODA’s Adopt-a-Dentist program and make a difference in a child’s life. The ODA has partnered with Schools for Healthy Lifestyles to provide resources to make it easier on our adopted dentists. Please visit our website for more info.

SMART SOLUTIONS FOR DENTAL PRACTICES

- Personal Lines of Credit
- Personal Financial Services
- Start-up Practice Financing
- Real Estate & Equipment Financing
- SNB Digital Lockbox
- Cash Management Services
Craig Nelson, CDT, AAS
23686 – How to Execute an All on 4 Prosthesis
2 credits - CDT lab credit hours
22615 – Managing Difficult Implant Cases
2 credits - CDT lab credit hours

The lecture will encompass how to execute all on four and managing difficult implant cases.

All on Four is certainly a buzz word today and patients are becoming aware of many possibilities. This course will cover all aspects of planning & execution of how to manage a difficult implant case. There will be an open discussion as we look at the challenges facing implants and tips on how to avert potential problems. We will follow a case from the surgeon placing initial implants, including treatment planning, 3D data, guided surgery, and techniques for temporary conversions to the final restoration on the day of surgery.

Kris E. Schermerhorn, CDT, AAS
Making Great Removables with State of the Art Thermoplastics
2 credits - CDT lab hours Certification

This course will describe the many options now available to dental laboratories and doctors, to replace metal and acrylic with Myerson’s advanced thermoplastics. Whether making clasps, removable partial dentures, or provisionals, thermoplastics offer real advantages. Kris Schermerhorn will review actual cases using Myerson’s DuraFlex, VisiClear and DuraCetal.

SOONERCARE REVIEW

What: Review of the SoonerCare dental program policy for Oklahoma’s fee-for-service system

When: Saturday - 12:30 PM

Where: Exhibit Hall - Curtained Area

Who: Dr. Leon Bragg, OK Health Care Authority (OHCA)

On the Agenda:
- General Administration
- Provider Benefits
- Documentation
- Provider Training
Need Qualified Dental Professionals?

**Dental Lab Technology**
The only PTC Certified training Dental Lab program in the state. Learn to make wax patterns that are later used to form metal or acrylic resin materials into custom-made appliances to be placed in the patient’s mouth by a dentist.

**Certified Dental Assistants**
Four expanded duty courses approved by the Oklahoma Board of Dentistry. Graduates are eligible to take the Dental Assisting National Board (DANB) exam. ADA accredited program that offers 4 expanded duty courses approved by the Oklahoma Board of Dentistry:

VALLIANCE

www.vbank.com
Oklahoma Mission of Mercy

Thank you to the many volunteers, sponsors and donors who gave their time and resources to the 2012 OkMOM!

1,733 patients received care in McAlester, equalling nearly $1.1 million in donated dental services. That’s amazing!

Lawton 2013

Please join us in Lawton at the Great Plains Coliseum. We need volunteers from across the state to provide much-needed care to Oklahomans!

Registration opens October 15, 2012!
For more information, visit www.okmom.org.

Exhibit Hall Concession Food

The concession stand will be open at 7:00 AM on Friday and Saturday mornings and will stay open until the Exhibit Hall closes each day.

Due to lack of participation in the box lunch program at the ODA Annual Meeting, it is being discontinued. However, the Cox Convention Center will now offer concession stands in the Exhibit Hall. This will hopefully satisfy our meeting attendees with better quality and selection of food for their lunch.

Alpine Almonds
Bagged Nuts or Candy - $3.50
2 Bags - $6.00
Bottled Soda, Bottled Water - $3.75

Primetime Concessions
Bottled Soda, Bottled Water - $3.75
Hawaiian Chicken Sandwich - $6.00
Chopped BBQ Sandwich - $6.00
Grilled Chicken Sandwich - $6.00
Pork Chop Sandwich - $6.00
Chopped BBQ - $7.00
Potato Skins - $5.00

Baked Potatoes:
Butter, Cheese, Sour Cream - $5.00
Chili, Cheese, Jalapenos - $5.00

Pizza Hut
Pepperoni or Cheese Pizza - $6.00
Bottled Soda, Bottled Water - $3.75

OKC Special Events
Ham or Turkey Sub Sandwich - $6.00
Ham or Turkey Wrap - $6.00

Chips - $2.00
Coffee - $3.00
Cappuccino - $4.00
Bottled Soda, Bottled Water - $3.75
Iced Tea - $3.00
Yogurt Cup - Vanilla or Chocolate - $4.00
Waffle Cone - $5.00
Toppings - $1.00
The 2012 Exhibit Hall as **new hours** and will be open 7:00 AM to 6:30 PM on Friday and 7:00 AM to 2:00 PM on Saturday. This year will feature approximately 100 booths of various vendors exhibiting all the latest products and services related to the art of dentistry and the business of running a dental practice.

Attendees can participate in the **ODA Bingo!** game that will take place during both days in the Exhibit Hall. The ODA Bingo! game has attendees visiting certain booths to fill out the game card in order to win great prizes. Find your game card in your packet.

**COME JOIN US AT THE AUCTION!**
The middle of the Exhibit Hall will feature the DENPAC Silent Auction, which is always one of the most popular events at the Annual Meeting. Numerous organizations and individuals have donated a wide range of items that will be available for purchase via silent auction. The Silent Auction opens at 7:00 AM on Friday morning and will close at 1:30 PM on Saturday. Stop by, make a bid, and have a free bag of DENPAC popcorn! All profits from the Silent Auction will benefit DENPAC, the Oklahoma Dental Association’s Political Action Committee.
