

OREGON EYE SPECIALISTS, P.C.

NOTICE TO CONTACT LENS WEARERS

Please note there is an additional charge for the evaluation of your existing contact lenses. This evaluation allows your doctor to check the effects of contact lens wear on the overall health of your eyes, determine if the fit and power are correct and write you a new prescription, if necessary. This evaluation fee for new patients is \$50. The fee for our returning patients is \$35. However, if your lenses need to be refit, the additional charges may range (\$95 - \$150) depending on the type of lens (i.e. Bifocal, Toric or Spherical). Your insurance may cover these fees but Oregon Eye Specialists cannot guarantee that coverage.

Please wear your lenses to your appointment and bring your current prescription and/or boxes of lenses.

Thank you,
The Oregon Eye Specialists Team
