"Great"

Aug 18, 2010

I didnt feel like they were just looking for more problems to get the most out of me. When I said I could still feel pain, they didnt just say it was in my mind and kept working on me. They took the time to explain what was happening the whole time

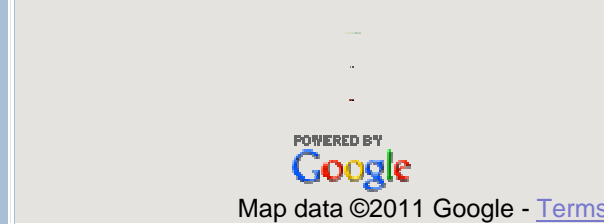

"VERY EASY"

Aug 13, 2010

luckily, i have good teeth so the bi-annual checkup did not take long. they did my xrays and cleaning. they scolded me (b/c they care) when they saw i was not religiously flossing and when they found i brushed my teeth too hard, inflicting some trauma on my gums. as a result, they all took the time to show me what better flossing aids to use and how to use it, and recommended 3 types of electric toothbrushes. i was going to buy the cheapest one (35\$) but then the dentist when out of her way to show me the most expensive one and gave me a 50% rebate form the manufacturer so i changed my mind and bought the 125\$ - \$62.50 after rebate) and really like it. everyone there is so nice!

Jun 9, 2010

I had heard that having a root canal was very painful, but Dr. Liza and her Associate took the time to put me at ease and to explain in depth what would occur. I had no pain whatsoever, and was out of the office in one and 1/2 hours.

GREAT PEOPLE, KNOWLEGEABLE AND EFFICIENT.

Comment from the business

Unfortunatley, with some of the deep discounts provided by your insurances, we have no room for more discounts. . No worries, rest assured, we will continue to give the level of care that you experienced already in our office. Thanks for the review.
