This is the second root canal procedure that i have been undergoing with Dr. Liza and despite the anguish and anxiety of that one normally feels from such a procedure, I was treated with amazing talent, professionalism, and heart. The staff at Mona Liza Smiles are fantastic, I feel lucky to have found them.

new to Florida. I had no idea how they really worked. I was so impressed with the cleanliness modernity of the office. I was very pleased with the professionalism at Mona Liza Smiles. Everyone was extremely warm, welcoming and informative. All was explained at each session including cost and time. The atmosphere at the office is calm and very family like. They all like each other and like their patients as well. I would highly recommend them.

### "Calming"

I really enjoyed going to this dentist, as much as I could possibly enjoy doing that. I actually feel better already! I had a small numbing pain in my upper right hand molar area and I just thought I had gum disease or something, or maybe chewed too much ice. Turns out I had two tiny cavities and now they, as well as the pain, are gone! I went in for just a check-up and came out with an entire treatment plan, as they call it. And I'm halfway there! I'm bringing my son and husband to this dentist. She is very sweet and perceptive to pain! I'm very happy that you are open some evenings and a weekend a month to accommodate working parents. This is a big deal. I couldn't find a single dentist in Sunny Isles Beach with your hours! And now I'm glad I found you instead - it's worth the travel!
