The word done by the dentist was excellent, superb. The staff assistant, Kim, wonderful, well informed. But I was not satisfied the business like approach to health care: too professionally focused. Everybody was smiling, cordial and efficient. The dentist took her time to explain the different procedures and listened attentively to all of my questions. I was very satisfied with the visit to the dentist.

I want to thank the whole team in making my time after my accident so easy. Everybody was so helpful and professional. My thanks especially to Dr Feliciano in giving me back 8 teeth that make me proud to smile again naturally, and no one has noticed they are false. Thanks is not a big enough word to say how truly happy she has made me feel.

**"will be back soon!"**
