The doctor took her time and made sure that I was completely satisfied, even though the appointment ran later then expected. If she did that with me you can be sure she will give every person the same professional care and dedication to her craft,She is gifted.

"Emergency Crown"

Feb 4, 2009

I found your business on Google when I had an emergency during the weekend. Even though you were not open that day you offered other possibilities and at the end when nothing worked you took time to come and help me out. I appreciate the help and the understanding of my situation. Thank you.

I could not have been happier. Dr. Feliciano was so gentle and sincere. She talked to me about everything related to my visit and made me feel so comfortable. It was the most positive dental experience I have ever had.
