

SRS' Drum Washers are designed to wash 30 & 55 gallon drums, barrels and Overpacks.

Pails, buckets, jars and lids can be cleaned in the Drum Washer also, when the Pail / Lid Rack Assembly is purchased with the unit.

High
Pressure
Wash

- Washes interior and exterior surfaces
- Solvent, caustic, sanitizer, and water washing
- Explosion resistant, ATEX, and zone 0 models available
- Electric or pneumatically operated
- Stainless or carbon steel construction

Designed for applications that require washing of the drums prior to crushing the drums for disposal. Instead of a separate drum washer and a separate compactor, the drum washer/crusher accomplishes both the jobs in one unit - thus saving time and money.
