

Advances in Bone & Soft Tissue Grafting

Daniel Cullum, DDS with LIVE Surgery

New Date - October 7-8, 2011

Coeur d'Alene Idaho

www.implantsnorthwestlive.com

An adequate volume of bone and soft tissue is critical for implant success. We will discuss patient assessment and planning for a continuum of treatment challenges facing the implant surgeon from recession defects, extraction site defects, immediate implant challenges, through more complex hard and soft tissue defects. Live surgery, case studies and video will be used to demonstrate bone and soft tissue grafting techniques with minimally invasive closed harvest, as well as, management of combined bone and soft tissue defects. We will discuss advanced peri-odontal "plastic" procedures in implant reconstruction including: tunnel grafts, pedicle grafts, and repositioned flaps. Discussion of the role of grafting materials, resorbable barriers and non-resorbable barriers for non-primary closure, BMP, growth factors and the management of complications will be completed. Attendees will be challenged to advance their bone and soft tissue techniques with progressive skill development in situations that present every day in our practices.

Course Director & Speaker:

Daniel Cullum, DDS

Dr. Cullum completed his DDS with distinction at the University of Alberta, Canada and residency training at Westchester Medical Center, New York. He is a diplomate of the American Board of Oral & Maxillofacial Surgery. Dr. Cullum is an active speaker, presenting at national and international meetings. He has contributed textbook chapters on implant reconstruction and served in leadership roles

at both state and local societies. At Implants Northwest, he practices oral and maxillofacial surgery with an emphasis on immediate and minimally invasive techniques in esthetic implant reconstruction. Dr. Cullum is President of Implants Northwest LIVE Learning Center, which emphasizes training in advanced techniques for surgeon/restorative teams using LIVE surgery and hands-on application in a small group environment.
