Daniel R. Cullum, D.D.S

Dr. Daniel Cullum completed his D.D.S. with distinction at the University of Alberta, Canada and residency training at Westchester Medical Center, New York. He is a diplomate of the American Board of Oral and Maxillofacial Surgery. Dr. Cullum has had the opportunity to speak at the national meetings of the American Association of Oral and Maxillofacial Surgeons, Academy of Osseointegration, American College of Oral & Maxillofacial Surgeons, American Academy of Prosthodontists, Cuban Society of Maxillofacial Surgeons, as well as many state and local meetings. He has contributed a textbook chapter on implant reconstruction and served in leadership roles at both state and local societies. Dr. Cullum is the president of Implants Northwest LIVE Learning Center, which focuses on providing advanced surgery training techniques for dental surgeon specialists and their teams through LIVE surgery, hands-on training and lecture. He also practices oral and maxillofacial surgery with an emphasis on immediate and minimally invasive techniques in esthetic implant reconstruction.

NobelActive™ –Advanced:

Active Solutions to Clinical Challenges,
Featuring Live Surgery and Restorative
Techniques

2008

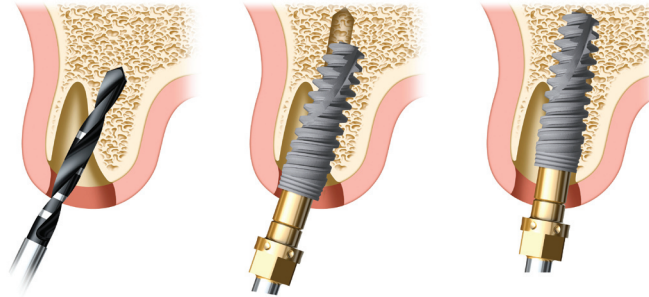

Daniel R. Cullum, D.D.S.
Oral & Maxillofacial Surgeon

*Implants Northwest
Live Learning Center
Coeur d'Arlene, Idaho*

September 27, 2008

Case studies will be used to demonstrate the unique capabilities of NobelActive™ to solve common clinical challenges with implant positioning, immediate placement & minimally invasive protocols. The advantages of bone preservation and thicker tissue around the implant collar reduces demands of site augmentation.

NobelActive™ – Active Solutions to Clinical Challenges Featuring Live Surgery and Restorative Techniques

Presented by Daniel R. Cullum, D.D.S.

September 27, 2008 • Coeur d'Arline, ID

Course Content

- The biological rationale behind the NobelActive™
- The unique design of the NobelActive™ Internal system
- The specific advantages of the NobelActive™ Internal system
- Implant placement following extraction
- Single stage and flapless implant placement
- Immediate Function™ indications and protocols
- Prosthetic options component and system review
- Treatment strategies from the single tooth replacement to full arch restoration

LIVE Surgical Demonstration of NobelActive™

Upon completion of this course you should:

- understand the unique design of the internal NobelActive™ implant
- understand the surgical and prosthetic protocol of the NobelActive™ Internal system
- be familiar with all the surgical and prosthetic components of the NobelActive™ system
- feel the unique handling characteristics of the NobelActive™ implant and its ability to change direction during insertion
- understand how these implants can solve difficult clinical situations and shorten treatment time
