

Minimally Invasive Esthetic Zone Reconstruction with LIVE Surgery

Daniel Cullum, BSc, DDS

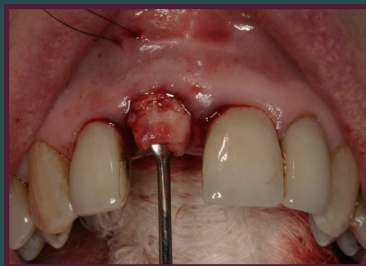

May 21-22, 2010

Coeur d'Alene Idaho

www.implantsnorthwestlive.com

Minimally invasive techniques incorporating esthetic zone principles are becoming established practice in implant reconstruction. The restorative dentist and surgeon must have a team approach to patient analysis and treatment planning. The benefits for our patients are: improved esthetics, less discomfort, faster healing and eager acceptance. Can we provide this predictably and with long-term stability? Join the discussion of esthetic zone management on esthetic analysis and team treatment planning, immediate implant/provisional restoration, flapless surgery and atraumatic extraction, minimally invasive bone grafting, sub-epithelial and pedicle connective tissue grafts, ridge expansion, Piezosurgery and avoiding complications. Minimally invasive techniques can have a steep learning curve. Using case presentations and live surgery, Dr. Cullum will demonstrate how these techniques can revolutionize the treatment your patients receive using a team approach to implant treatment.

Course Director & Speaker:

Daniel Cullum, BSc, DDS

Dr. Cullum completed his DDS with distinction at the University of Alberta, Canada and residency training at Westchester Medical Center, New York. He is a diplomate of the American Board of Oral & Maxillofacial Surgery. Dr. Cullum has had the opportunity to speak at the national meetings of the American Association of Oral & Maxillofacial Surgeon,

Academy of Osseointegration, American College of Oral & Maxillofacial Surgeons, American Academy of Prosthodontists, Cuban Society of Maxillofacial Surgeons, as well as many state and local meetings. He has contributed a textbook chapter on implant reconstruction and served in leadership roles at both state and local societies. At Implants Northwest, he practices oral and maxillofacial surgery with an emphasis on immediate and minimally invasive techniques in esthetic implant reconstruction. Dr. Cullum is the President of Implants Northwest LIVE Learning Center. The Learning Center emphasizes training in advanced techniques for surgeon/restorative teams using LIVE surgery and hands-on application in a small group environment.
