

Soft Tissue Grafting

with LIVE Surgery

Daniel Cullum, DDS

August 27-28, 2010

Coeur d'Alene Idaho

www.implantsnorthwestlive.com

This course will focus on the evaluation and management of soft tissue deficiencies and development of surgical skills for connective tissue (CT) grafting including; closed harvest from the palate and tuberosity, incision design, donor site evaluation and graft bed preparation. The role of soft tissue enhancement for gingival recession defects, prior to implant reconstruction and at 2nd stage implant uncovering will be demonstrated. Additionally, we will present the use of apical and lateral repositioned flaps, frenoplasty, management of high muscle attachments and vestibuloplasty. Proficiency in these soft tissue management skills are critical to a long term esthetic and functional outcome in implant reconstruction.

Course Director & Speaker:

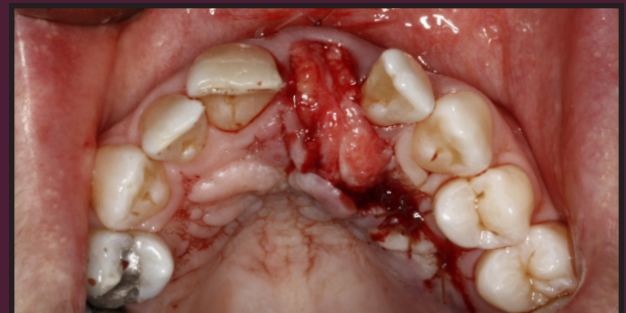

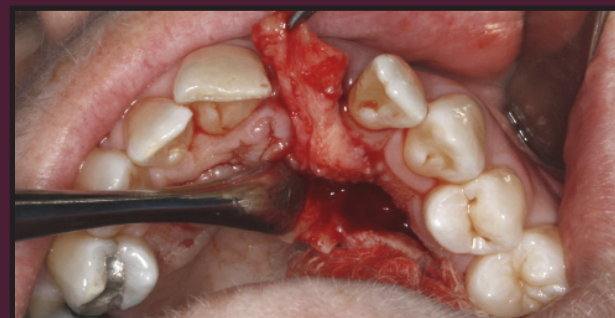

Daniel Cullum, DDS

Dr. Cullum completed his DDS with distinction at the University of Alberta, Canada and residency training at Westchester Medical Center, New York. He is a diplomate of the American Board of Oral & Maxillofacial Surgery. Dr. Cullum has had the opportunity to speak at the national meetings of the American Association of Oral & Maxillofacial Surgeon,

Academy of Osseointegration, American College of Oral & Maxillofacial Surgeons, American Academy of Prosthodontists, Cuban Society of Maxillofacial Surgeons, as well as many state and local meetings. He has contributed a textbook chapter on implant reconstruction and served in leadership roles at both state and local societies. At Implants Northwest, he practices oral and maxillofacial surgery with an emphasis on immediate and minimally invasive techniques in esthetic implant reconstruction. Dr. Cullum is the President of Implants Northwest LIVE Learning Center. The Learning Center emphasizes training in advanced techniques for surgeon/restorative teams using LIVE surgery and hands-on application in a small group environment.
