

Dentists Team with Smiles for Life To Make Children Smile

It's not often that these people get the chance to help others while helping themselves. But for four months each year a select group of dentists across North America present everyone with a unique opportunity to have their teeth professionally whitened while donating all of the proceeds to children's charities. During this limited period of time, these dentists offer professional tooth whitening to their patients for less than the nominal cost.

Dr. David Sorial of Southgate, MI is participating in this unique Smiles for Life program. He is offering to do professional teeth whitening from March 1st through the end of June in exchange for the patient's personal donation to the Smiles for Life Foundation. The requested donation of \$149.00, is substantially less than the standard fee for this service. Fifty percent of the funds will go to Southgate Schools for children in need of dental treatment and the remainder to national children's charities through the Garth Brooks Teammates for Kids Foundation.

This is part of an annual campaign organized by the Crown Council, an association of elite dentists throughout North America of which Dr. Sorial is a member. Their charity organization, the Smiles for Life Foundation, has raised more than \$20 million dollars since it was organized in 1998. The funds have benefited over 500 children's charities.
