## **You won't wait here!**

We pride ourselves on always being on time. As comfy as our waiting room is, you won't be there long. Respect for your time will always be a top concern for us. We understand when situations arise where you may need to cancel your existing appointment, however a courteous 24 hour notice is most appreciated to allow us time to accommodate other patients that need to come see us. We are not the type of practice that charges you a set fee for our time when you cancel an appointment. We plan not to implicate a system like this as long as mutual respect for everybody's time is taken in to consideration. Thank you for your continued thoughtfulness.
