

Shortly before I started seeing Dr. Hoffman, I became engaged to be married. Dr. Hoffman, upon hearing of my up-coming marriage, suggested braces to straighten my teeth and whitening them for a brilliant smile on my wedding day. I was surprised, as I just thought of using the store-bought teeth whitener, but I agreed to go ahead with the process. Dr. Hoffman used the Invisalign braces, which were fantastic! No one knew that I was wearing them, they were easy to keep clean, and they didn't interfere with eating. As my wedding day got closer, Dr. Hoffman bleached my teeth. As an avid coffee drinker, I could see the whitening results immediately. It was so much of a better product than the store-brands I had used before. The end results of the braces and whitening were amazing. With all of the little details to worry about on my wedding day, my smile was not one of them. My wedding photos feature my "picture perfect" smile with beautifully straight, white teeth. I will always be grateful for the work Dr. Hoffman did for me. My wedding day pictures will always be something that I treasure.
