

This office and staff are warm and inviting - two traits which are invaluable to the new patient. Dr. Hoffman spoke to me in plain English sometimes a little too plain-lol and isolated the problem in 90 seconds.

I've been in the Air Force for many years and been referred off base a few times, none of those dentists even came close to Dr. Hoffman and his staff.

After my first crown, with Dr. Hoffman, I found out months later that I had to have another root canal and crown. I saw a specialist for the root canal. That dentist was in awe of my beautiful crown. I was not aware that it was "beautiful", just that it was comfortable. Until then, I was unaware that there was a difference from one crown to another. I knew then that no matter whether I was in the Air Force, or not, Dr. Hoffman was my "go to guy" for beautiful cosmetic work.

I could go on and on about this fabulous team, thank you for your outstanding care and treatment. You truly are the best.
