Welcome to Council Avenue Dental

Principal Dentist Dr James Wong and his team extend to you the highest level of dentistry and are committed to providing an uncompromising standard of care. Treatment provided by Council Avenue Dental represents the practices' appreciation of 'outstanding quality'.

We provide comprehensive general, family and cosmetic dentistry to achieve your optimal dental health. We are committed to ongoing education keeping abreast of the latest in dentistry advancements and techniques.

Combine our dental expertise with our amazing customer service in our state-of-the-art practice, and you can rest assured that your dental experience will be performed to the highest possible standard.with a smile!

Preventative Dentistry

As a practice, we are true believers that preventative care and oral hygiene education are the keys to optimal dental health. We have a qualified dental hygienist who is not only focused on the beauty of your smile, but also concerned about your oral health.

Regular dental visits are recommended to monitor your oral health and for the early detection of any problems that you may develop. In many cases early diagnosis may mean minimal treatment, thus likely to reduce the time and cost. Usually we recommend that you attend our practice every 6 months for your dental clean and check-up. This is suggested for both adults and children.

Most problems in your mouth are caused by plaque build up on your teeth. A bacterium in plaque produces acids that cause cavities, if left untreated, plaque can lead to gum disease, which is a potentially serious infection that can damage bone and destroy the tissues surrounding the teeth. Studies have also linked gum disease to other serious health issues including heart disease and stroke.

Cosmetic Dentistry

Designing a beautiful smile is about the whole face and not just correcting the front teeth you do not like; factors that are taken into consideration include face shape, skin tone, age, gender and of course your preferences.

The long-term success of your cosmetic treatment is directly associated with how good your oral hygiene is and overall current health.

Every smile is different and therefore when looking for that perfect smile, an individual treatment plan is devised. There are a number of different procedures available, including:

- ▶ **Implants and Mini Implants** – If you are missing a tooth or teeth, a permanent option is an implant or mini implants.
- ▶ **Crowns and Bridges** – Replacing one or several teeth is easy with crowns and bridges.
- ▶ **Veneers** – are an ideal way to repair or improve chipped, stained or discoloured teeth.
- ▶ **Whitening** – A simple procedure that can create brighter, whiter teeth and give your smile an instant lift. Instant whitening and take-home kits are available.
- ▶ **White Fillings** – Natural looking, strong tooth coloured fillings for your front and back teeth.

Your treatment may include one or a combination of the above procedures.

Dental Treatments

We offer a comprehensive list of services that can be performed after correctly diagnosing your problems and listening to your treatment desires.

- ▶ **Preventative Dentistry** - Dentistry for you and your family with your future needs in mind.
- ▶ **Oral Hygiene** - A dedicated oral hygiene department for the care and maintenance of your smile.
- ▶ **Gum Care** - Periodontal treatments.
- ▶ **Implants and Mini Implants** - replacement of missing teeth

With the latest technology in dental implantology, we now offer; Mini Dental Implants which may be the answer to your loose and uncomfortable denture problems. You can visit Council Avenue Dental in the morning, have Mini Dental Implants placed in about an hour, and then leave our office with stable secure dentures attached to your Mini Dental Implants. Imagine eating, speaking and smiling with confidence. Your denture feels secure and is held firmly in place, thanks to Mini Dental Implants.

- ▶ **Children's Dentistry** - Special services and treatments for children with a dedicated approach to education and caries prevention.
- ▶ **Dentistry while you sleep (I.V. Sedation)** - For anxious patients or long treatment procedures.
- ▶ **Cosmetic Dentistry** - Full assessments and advice on combining treatments to improve your overall smile.
- ▶ **Dentures (Full and Partial)** - Same day repairs and relines.
- ▶ **Mouthguards, Splints and Night guards** - For grinding and clenching.
- ▶ **Emergency treatment** - Root canal, extractions, sports injuries and accidents.

Helping you to achieve a sense of wellbeing by enhancing your dental comfort, function and appearance is our mission. Our Council Avenue Dental team is made up of well-trained professionals who work together to bring you the highest quality treatment in a warm, comfortable and caring environment.

Dental Technologies

At Council Avenue Dental it is our goal to provide you with an exceptional level of service, incorporating a meticulous approach to your treatment and comfort.

All equipment and materials used in our practice are specifically chosen for their scientific and technological superiority. We pride ourselves on purchasing and maintaining only the very best and latest equipment.

New technology:

- ▶ Digital imaging
- ▶ Intra-oral camera
- ▶ Happy Gas
- ▶ In-Chair entertainment
- ▶ Laser dentistry

Infection control in our practice is also very important to us. To protect our patients and ourselves, we strictly maintain sterilisation and cross-contamination processes using standards recommended by the Australian Dental Association (ADA).
