

Dear Friends-

Norco Valley Dental reached its one year anniversary on April 2, 2008. We celebrated this with a lunch at one of the staff's favorite lunch spots, the Steer Grill Restaurant on Hamner. Our first year was full of changes and learning experiences. We remodeled our office and updated our computer system. Those of you, who have been through a computer system upgrade, understand how that can really shake up an office. We participated in and contributed to a few local fund raisers and events. The Norco Valley Fair, Lion's club car show, Horse Week, and Norco High Cougars baseball program are a few of places you might have seen the Norco Valley Dental name. We enjoy participating in these events and it follows our philosophy of being a local focused dental practice. We'll see you soon.

DOCTOR'S WORD:

This spring season has had its "ups and downs" climate speaking, hot one day and cold and rainy the next. As for my staff and I, it was a spring of all "ups". We had an incredibly busy spring filled with many learning opportunities and educational programs that kept us on the go.

On April 25 & 26 we attended the Lumineers by Cerinate workshop in Temecula. This course provided us with the skills and knowledge to do smile enhancing veneers without "shots" or "drilling". This process also permits the re-design of a smile to perfection. You, the patient, can choose the color, size and shape of the teeth in order to improve your smile which then improves your overall appearance and confidence. This is the same process as seen on shows like "Extreme Make Over". For more information on Lumineers by Cerinate see our website at:

Actual patient from 4/25/08

May 1- May 4 the entire Norco Valley Dental Staff moved to Anaheim in order to attend the California Dental Association scientific session. This is one of the most important dental conventions in the country. At the convention, the staff attended lectures on infection control, efficiency in dental assisting, front desk service, and California law. These classes are taken to make my staff more knowledgeable, professional and a better resource for you the patient.

I attended lectures and workshops that ranged from the newest approach to Endodontics (root canal treatment) to dental forensics and the roll of dentists in mass disaster management. These courses were very interesting and educational. As good education does, the courses help me to stay sharp and be a better provider for my patients.

This CDA event is also a huge dental market place. The latest gadgets and gizmos are on display for all attendees. I was like a kid in a candy store. My best purchase was a system that disinfects the water before it enters the lines of our operatories. That means the water that enters your mouth is not only distilled but further sanitized.

SPECIALS!!! \$\$\$\$\$\$

For the dates of July 1, 2008-September 30, 2008 Norco Valley Dental will offer a Summer Zoom whitening special. Come in and get your smile whitened with this incredible process that can improve the whiteness of your teeth by as many as 7 shades, in one hour. This will be available for **\$ 295.00** the regular price for this process is \$450.00. Those of you who have had the process can take advantage of your enhancement for only **\$120.00**.

Keep in mind the Norco Valley Fair is coming up over Labor Day weekend. Come by our booth to say hello and get some free goodies.

RACHEL'S CORNER:

This is a great time for me because my sister just came home from her 9 month visit to London. She studied abroad and traveled to many other locations all around Europe. She had a wonderful time. In addition to my sisters return I have family that I have not seen in 10 years visiting from Florida. With all of these guests my house is very full. I am looking forward to catching up with all of them in the next few weeks.
