The office is very pleasant and always makes the family feel as if they care and I like that I'm address by my first name and when asked about the kids at home and how are they doing. I also like that Dr. Chen takes the time to call at home after having major work done and takes the time to call the kids orthodontic regarding the kids. It makes a difference when the doctor cares.

I just want to say Rachel did an excellent job on the deep cleaning. I was to be given local anesthesia so I would be comfortable for the deep cleaning. I learned Rachel was going to give

me the shots and found myself thinking I would rather have Dr. Chen give me the shots. However, I worried for nothing, as she did an EXCELLENT job with the shots. She was really good at it, hardly felt anything. Good job Rachel! Thank you for taking good care of me.

Chris M. Aug 4, 2011 9:45 AM **PATIENT SURVEY**

This was my second visit to this dental office. Because of having past bad experiences at the dental office I would hate and would never go the dentist. Also because one dentist wanted to charge me \$2000 for fillings, then later on found out I did not need those fillings, just needed to brush better. But going twice in a row (that is the first time I have gone to the same dentist twice) this was a better experience. The office was very inviting everyone was very friendly. The first time I had a teeth cleaning and was not in pain. I was surprised that both the dental hygienist and the dentist remembered my last visit from 6 months ago so well, Dr. Chen jokingly asked have I have been biting on any forks lately which is something I said on my last visit. Thanks for the good dental experience and your awesome staff that I met on this visit Tammy, Patty, Eden, Sandy, Ayeisha & Ashley. P.S. I know the staff names because they introduced themselves.
