

SOFT TOUCH DENTAL SPA

You might expect a household appliance to come with a guarantee—but a set of porcelain inlays? At Soft Touch Dental Spa, they stand behind their work.

After receiving his doctorate from Tufts University of Dental Medicine, one of the top-ranked dental schools in the country, Dr. Fakhimi moved to San Diego and opened Soft Touch Dental, where he uses the latest dental technology in cosmetic and reconstructive dentistry, orthodontics, and oral surgery.

Dr. Fakhimi works closely with cosmetic surgeons to deliver extreme makeovers. "Improving your smile really improves self-esteem," he says. "It helps with careers, social life and everywhere making a good first impression matters."

At his comfortable dental spa in Clairemont, Dr. Fakhimi strives to create a relaxing atmosphere for his patients. Through painless procedures such as digital imaging and sleep sedation, Dr. Fakhimi makes patient visits stress-free.

"We're here to make dentistry a more pleasant and positive experience," Dr. Fakhimi says. "We cater to people who are anxious and afraid to see the dentist."

Dr. Fakhimi holds active membership in the American Dental

Association and regularly attends continuing education courses and seminars to stay current on new techniques in cosmetic dentistry, orthodontics and endodontics. In addition to receiving an undergraduate degree in biology and his doctorate, Dr. Fakhimi graduated from the Las Vegas Institute of Advanced and Cosmetic Dentistry, a leading dental institute specializing in advanced technology in cosmetic dentistry and full-mouth restoration.

Dr. Fakhimi offers complete dental services, from crowns, veneers and composites to braces, dental implants and root canal therapy using state-of-the-art dental technology such as intra-oral cameras, advanced whitening systems, digital x-rays for minimal radiation and an extensive sterilization facility.

A. Fakhimi, D.M.D.
