

RECAPTURE YOUR YOUTH

Introducing a unique Medical & Dental Spa that grows and advances with the speed of technology. Who would have ever thought that both cosmetic enhancements and cosmetic dental needs could be accomplished at one convenient location? It's now being done by two remarkable brothers: Dr. Alexander P. Ataii, M.D., the Medical Director of Laser Clinique and Dr. Payam C. Ataii, D.M.D., the Dental Director. These two brothers are known to have an abundance of charm and charisma that is immediately perceived by their patients.

Laser Clinique is a state-of-the-art facility in Torrey Hills that blends medicine, surgery, and dentistry to treat all of a client's cosmetic needs. "Our goal is to enhance

each patient's image by not only treating their skin but also their smile," agree the doctors.

Dr. Alexander Ataii, M.D. has tremendous talent, but he is known by his patients as an artist. Dr. Alexander Ataii consults with each of his patients and revives their inner beauty with the latest most innovative techniques.

The newest technique for Non-Ablative skin resurfacing is finally here. Laser Clinique is launching the new ActiveFX™ as the premier office in San Diego that provides this procedure. ActiveFX™ targets wrinkles, skin laxity, fine lines, pore size, dyschromia, and rediscovers your youth. It diminishes wrinkles and acne scars. No more

partial or full face lifts that can be extremely costly and most importantly require lengthy down time. Other advantages of ActiveFX™ are: procedure time of approximately 20 minutes, only topical anesthetic needed and requires one single treatment. Call today for your complimentary consultation (858)481-7701.

Dr. Payam C. Ataii, D.M.D., has received national recognition in the field of laser dentistry, and has been featured on **ABC, NBC, CBS, KTLA** and **E! Entertainment**. He provides patients with his patented

LaserBrite™ teeth whitening, Laser Mercury Detoxification, and Invisalign® invisible braces. "Our goal is to tailor a custom treatment plan to optimize a patient's appearance, which will naturally make the individual feel younger and more confident in him/herself," says Dr. Payam Ataii. "Best of all we eliminate pain from the process."

BEFORE

AFTER

In addition to serving patients throughout San Diego, Laser Clinique is also a teaching institution providing training to other physicians, one of only 4 such facilities in California.

Stepping into this exclusive facility is an experience one will never forget. The delightful staff and experienced physicians and dentists will leave you with the healthy skin and the bright smile you deserve.
