CE COURSES

Gerrald P. Unhold, D.M.D., M.D. North County Oral & Facial Surgery Center

2 CEU 8 to 10 am

1 Implant Pitfalls

Implant dentistry continues to improve and become more predictable. However, complications still occur. Prosthetic as well as surgical complications will be presented. Actual implant cases will be shown to demonstrate common as well as some not so common errors.

1 0 CT Guided Implant Surgery

CT Guided Implant Surgery has undergone significant improvements since it's inception several years ago. Virtual surgery can be performed on the CTscan. Surgical stents can be fabricated from the virtual surgery. Has the technology progressed adequately so that CT guided stents can be used predictable and accurately? A case will be presented to demonstrate the latest technology.

Linda Sheldon,  **FRED PRIOR SEMINARS**  **CAREERTRACK**

2 CEU 8 to 10 am

1 0 Collections Law

Discover information, strategies, and techniques to help you collect debts more swiftly and protect your assets more effectively.

- When your collection procedures aren't getting the results you want
- Strategies for collecting debts owed quickly and legally

Robert J. Hanlon Jr., D.M.D. and Charles E. Jerome, D.D.S., Escondido Endodontics  2 CEU 8 to 10 am

1 0 Overcoming Difficulties With Local Anesthesia

Review and discuss local anesthesia, injection techniques and various anesthetic solutions for achieving profound anesthesia of the "hot tooth".

1 0 3 Diagnosis: The Art of Listening to the Patient how to formulate a diagnosis based on assessment of the patient's chief complaint and oral history, that is by carefully listening to what they have to say. A review of pulp testing and radiographic interpretation will be used to support the diagnosis.

Kathy Dennis and Cary Schaffner, Guiding Light Dental Consulting

2 CEU 8 to 10 am

1 0 Infection Control / OSHA

Mandatory course that teaches how to make the office OSHA compliant and also includes Blood Borne Pathogen training. The Infection Control Course is mandatory in the state of California.

Bob Devine, Dental Practice Specialist for 3M Sponsored by: **3M ESPE**

1 CEU 11 am to 12 pm

1 0 Temporization Made Easy

Review of provisional materials, indications, physical properties & technique. Hand on session with both Protemp Plus and The revolutionary Protemp Crown – a preformed, malleable crown - no hardware or matrix and no mess! A temporary made in 5 minutes or less.

Paul Hinman, Vice President, Liptak Dental Services  1 CEU 11 am to 12 pm

1 0 The New Digital Dental Office

- Incorporating software, x-ray technology and iPads into the operator
- Check-in kiosks
- Your data disaster plan

Joe Hayes, CEO, Hayes Handpiece Company  1 CEU 11 am to 12 pm

1 0 New Handpiece Technology

- 45 degree handpieces: what's new in the marketplace
- Electric handpieces: pros and cons
- Burning issues with electrics
- Hybrid handpieces

Dr. David S. Alleman Sponsored by:  **KURARAY** 2 CEU 11 am to 1 pm

1 0 Introduction to Biomimetic Dentistry - How to Get Bonded and Stay Bonded

Adhesion Dentistry is a relationship between stress & bond strength. If the bond strength can withstand the stresses then the restorations will be successful. This course will give scientific evidence on how to control stresses, which maximize bond strengths. This maintains the seal, prevents secondary caries, eliminates post-op pain and preserves pulp vitality.

Clement Qaqish, D.D.S., M.D. North County Oral & Facial Surgery Center  1.5 CEU 11 am to 12:30 pm

1 0 Medical Emergencies in the Dental Office

This presentation serves as an overview of common (and uncommon) emergencies in the dental office. Prevention, recognition and management of such problems will also be reviewed with emphasis on the TEAM approach. The session will include an interactive case discussion.

Michael C. DiTolla, DDS, FAGD Sponsored by: **IOS FastScan** 1.5 CEU 11 am to 12:30 pm

1 1 State-of-the-Art Impressions and Digital Restorative Dentistry Using the IOS FastScan@ System

IOS FastScan® is the latest entry into the growing field of digital intraoral scanners. In this lecture and demonstration, Glidewell Laboratories' Director of Clinical Education and Research Dr. Michael DiTolla will discuss the unique properties of the various intraoral scanners available on the market today and what makes them ideal for dental practices looking to deliver superior restorations by taking more accurate impressions.

Linda Sheldon,  **FRED PRIOR SEMINARS**  **CAREERTRACK** 2 CEU 2 to 4 pm

1 1 Collecting Accounts Payable in the Dental Office

Employees will gain a new perspective on the accounts payable process and the priorities, goals and objectives of the job. Payables will be processed faster with greater efficiency. Stay on top of emerging trends and new developments in your field—including hot technologies, the latest government regulations, and much more.

Rich W. Hardie Jr., D.D.S., M.S. and Lily A. Workman, D.D.S., C.A.G.S. Hardie Orthodontics  2 CEU 2 to 4 pm

1 1 New technologies in the world of Orthodontics.

A brief overview of what is out there including Temporary Anchorage Devices and 3-D imaging and how these new ideas are being used.

1 2 Evaluation of early Orthodontic problems and when to refer.
A discussion of common orthodontic problems and preferred timing for correction.

Susan Gaines, Henry Schein Practice Solutions Representative Sponsored by:  **HENRY SCHEIN®** 2 CEU 2 to 4 pm

1 1 Maximizing Your Practice Management Software for Success

"From collections to insurance, from Treatment Planning to effective time management, your practice software holds the key. Maximizing this powerful tool is paramount in any successful and growing practice. Learn the ins and outs of what to focus on, what to look for as you go "paperless" and begin to harness one of your most powerful tools to enhance you patient care and create efficient systems in your practice."

Kathy Dennis and Cary Schaffner, Guiding Light Dental Consulting 2 CEU 2 to 4 pm

1 1 Dental Law

This course is mandatory through the Dental Board of California. The course discusses current ethical concerns and new laws relating to the business of dentistry.
