Dr Paul Quinlan and the team at Quinlan Dental Care would like to invite you to take part in the Hygiene & Maintenance Lecture Evening. This will inform dentists, hygienists and dental nurses how to maintain and successfully integrate the continuous supportive care of dental implants and the Peri-implant tissues into your practice.

Delegates will:
- Review evidence basis for implant maintenance
- Review techniques and materials for dental implant maintenance
- Review Periodontal care with respect to natural teeth and dental implants
- Learn about the tools and instruments for implant care
- Learn about complications and implant management

For more information or to reserve your place please contact Cherie or complete the form below:

*Practice discounts for more than two team members.
