Dr Paul Quinlan and the team at Quinlan Dental Care would like to invite you to take part in the Single Tooth Implant Restorations Lecture Evening.

This will be an introduction to this rewarding field and help you successfully integrate the restoration of dental implants into your practice.

**Delegates will:**

- Gain an introduction to implant dentistry
- Look at impression techniques
- Learn about screw retained vs cement retained restorations
- Learn the key criteria in abutment selection
- Learn about restorative materials and techniques
- Find out more about placing restorations
- Learn about complications and implant management

Dr Paul Quinlan is a specialist in Prosthodontics and Periodontics. Paul graduated from the Dublin Dental School in 1991. He completed a master’s degree in Periodontology in the Eastman Dental School London in 1993. After working in general practice for three years he was awarded a Fulbright Scholarship for study in the USA, and he travelled to the USA in 1996 to study at the University of Texas Health Science Centre in San Antonio. He was the first student to complete both the periodontal and prosthodontic specialty training programmes. He is Diplomat of the American Board of Prosthodontics and the American Board of Periodontics; one of a small number of individuals to achieve this status. He holds Irish and US dental licenses and has practiced as a full time prosthodontist and periodontist in Ireland since 2004. He is also an ITI study club host.
