

DON'T Let Your Smile AGE YOU!

Why look older than your age
when we can **rejuvenate** your smile !

Don't let missing, stained, yellowed, crooked, or chipped teeth add years to your face.

We can beautifully **restore** the length, shape and color of your teeth to bring back a smile that's the *real* you!

Stop Smile Aging!

Here's proof that you may not realize your smile isn't what it used to be. Find a photo of yourself from 20 or 30 years ago and compare it with your current smile.

Are your once pristine pearly whites now yellowed and dull? Do your front teeth no longer show when you smile? Worn down teeth are major smile agers.

What if your teeth could look like they did long before these age-related changes occurred?

Well, now they can!

Ask about our **state-of-the-art teeth whitening, bonding, porcelain veneers, dental implants, tooth colored fillings, ceramic crowns and bridges!!**

Start With a Strong Foundation...

Your best bet for preserving your youthful smile: Keep your teeth and gums healthy with excellent home care and regular checkups.

Here's why...

When you lose a tooth, you will also lose supporting bone! When you ignore *periodontitis*, (advanced gum disease), you will have bone loss! When you have bone shrinkage, you lose your youthful jawline definition and contour!

Bone loss to your lower and upper jaws contributes to sagging skin and wrinkles. Bottom line: jaw bone loss makes you look older.

Periodontitis also leads to receding gums that expose the tooth roots. Looking "long in the tooth" (another way to say looking older) will age your smile.

RESTORE your youthful smile,
IMPROVE your looks and
BOOST your confidence.

Dental Implants:

The Most Attractive, Permanent Tooth Loss Replacement Available!

Look great! Eat your favorite foods again! Smile and speak with greater confidence! No more messy adhesives, soaking, or slipping dentures!

If you're self-conscious because of missing teeth, you don't want to have good tooth structure removed to make a bridge, or you find dentures uncomfortable—**find out if you're a candidate for Dental Implants.** ❖

A **dental implant** is an artificial tooth root replacement and is used in prosthetic dentistry to support restorations that resemble a tooth or group of teeth.

There Are Many Advantages to Dental Implants!

Nothing comes close to the advantages of having a Dental Implant over other tooth replacement options!

- ✓ IMPROVED APPEARANCE**
They blend beautifully with your own teeth.
- ✓ MORE COMFORTABLE**
They feel just like your natural teeth. You may even forget you have them!
- ✓ PERMANENT**
Implants fuse with your jawbone so they become a permanent restoration. However, the longevity of your implants may depend upon how well you take care of them.
- ✓ SECURE**
Since implants are posts that are surgically placed in your jaw and become encased in bone, they function as a strong base for attaching your crown replacements.
- ✓ PREVENT BONE SHRINKAGE**
An implants is the only tooth replacement that actually replaces your tooth's root and helps prevent the bone loss that follows tooth loss.
- ✓ SAVE TOOTH STRUCTURE**
More of your own teeth are left intact. You don't have to reduce the supporting teeth that anchor a dental bridge.
- ✓ EASIER TO CLEAN**
Unless you have a partial or dentures, you can clean them as you would your natural teeth because, unlike a bridge, you can floss between implants and natural teeth.
- ✓ MORE AFFORDABLE THAN YOU THINK!**
The cost of a single implant may be comparable to a 3-unit bridge. However, there is a greater likelihood that a bridge will need to be replaced. With proper care, implants can last a lifetime.

The Secret to a "Better Love Life for Singles" May Be a Great Smile!

First impressions are made within the first 10 seconds. And you don't get a second chance to make a good first impression!

Nationally recognized lifestyle expert, Justine Santaniello, knows first-hand the challenges that nearly 100 million U.S. singles face when navigating the dating world,

"What is clear from loads of research and my personal experience is that having a **winning smile** often influences whether you even get that first date."

Whether you're looking for love online or in-person, **your smile matters.** ❖

A unique study was conducted by Harris Interactive on behalf of Invisalign. The "Singles & Smiles" online survey of 2,000 adults showed:

Why put your stunning smile on hold? Make an appointment to come in and talk to us about how to achieve the beautiful smile you deserve!

By Mark Ammons

Each and every person in the office makes me feel so comfortable. Plus, I like going to a dentist that's right in my neighborhood.

Their customer service is unmatched! Whether it's in person or on the phone, **they're always so courteous and respectful.**

If they find dental problems, no one is judgmental. They're just happy I'm there taking care of what needs to be taken care of!

They take the time to listen to my concerns and explain the different ways to address my dental issues.

With such positive dental experiences, **I have no problem scheduling a routine checkup, even if I'm not having pain or discomfort.**

The staff is what makes this office such a great place to be a part of. **I would absolutely refer my family and friends!** ❖
