

DENTAL *Esthetic Institute*

1421 Main Street, Rahway, NJ 07065 • Tel: 888.866.8452

AC Dental Esthetic Institute has been an industry leading full service laboratory for over 30 years. We are a Certified Dental Laboratory and Dawson trained. Our experience has made us the laboratory of choice when esthetics are the determining factor in whether a restoration will be successful. We are a top 25 Implant Laboratory and the Tri-State areas leading provider of Zirconia All Ceramic restorations. Any laboratory can fabricate a crown or bridge, at AC Dental we don't want to be viewed as just another vendor but rather your partner helping you grow your practice one smile at a time.

Your Partner for a Beautiful Smile

AC DENTAL BRINGS ESTHETICS, SIMPLICITY AND COST CERTAINTY TO YOUR PRACTICE WITH ALL-INCLUSIVE ATLANTIS CAD/CAM CROWNS

AC Dental Esthetic Institute and Atlantis™ Abutments can bring simplicity and profitability to your practice while providing the esthetic and functional results you and your patients demand.

- Outstanding function & esthetics - as close to natural teeth as you can get
- Simple restorative procedure - just take the impression and send it to AC Dental Esthetic Institute
- Available for all major systems such as Astra Tech, Biomet 3i, Nobel Biocare, Strauman and Zimmer
- Platform independent and available in both white & shaded zirconia, titanium and gold shaded titanium
- Each abutment is designed using the Virtual Abutment Design (VAD™) patented 3D optimized scanning process

Clinical Observations

Figure 1: A conventional stock abutment lacks natural tooth-shaped contours. The narrow cylindrical shaped stock abutment forces a “mushroom” shaped crown.

Figure 2: An Atlantis Abutment is shaped exactly like a natural tooth prep from Wheeler’s Anatomy. This anatomic shape allows for a more naturally shaped crown for better esthetics and function.

Figure 3: The Atlantis crown on the left provides superior retention and requires significantly less alloy on the coping.

Summation: With the cost factor eliminated it’s easy to understand why doctors prefer the clinically and esthetically superior results of an Atlantis CAD/Cam custom abutment crown.

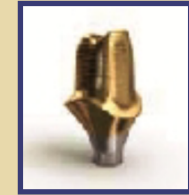

ALL-INCLUSIVE Atlantis™ CAD/CAM Patient-Specific Implant Crowns

At AC Dental Esthetic Institute our mission has always been twofold. First we continually strive to provide our doctors with the highest quality restorations. Secondly, whenever possible we try to provide you tools to help you manage your practice. To this end we started our marketing department two years ago which has greatly helped our partner doctors grow their practices and attract new patients. Our newest tool to assist you is providing you with *cost certainty* as you discuss treatment options with a patient. We understand regardless of how obvious the clinical need may be, a patient is just as concerned with the cost factor. In order to assist you with this we are happy to offer you the following *All-Inclusive Implant* options. Now when discussing implant treatment options with a patient you will have cost certainty for each of these options.

\$499.00
