

CONGRATULATIONS

DR. JENINE ARAB O'MALLEY, DDS, AAACD

Halifax Dental Studio is pleased and proud to announce that Dr. Jenine Arab O'Malley has been awarded Accreditation status in the **American Academy of Cosmetic Dentistry**. AACD is recognized as the world's most advanced accreditation program in cosmetic dentistry, requiring the highest level of technical skill and competency in cosmetic dentistry. The Accreditation process is rigorous, involving a comprehensive written examination, demanding clinical case examinations, and oral examination by the world's leading cosmetic clinicians. Achieving accreditation by the AACD requires dedication to continuing education, careful adherence to a strict clinical protocol and a resolve to produce exceptional dentistry. It is the ultimate display of one's professional dental skill and firm lifetime commitment to the perfection of cosmetic dentistry.

Dr. Arab O'Malley is distinguished as one of only 400 dental professionals world wide to have achieved Accreditation status in the AACD. She will be recognized as the first dentist in Atlantic Canada to have reached this designation. Dr. Arab O'Malley will join eight other international dental professionals at the 2015 AACD Conference in San Francisco, May 6-9 to be formally awarded the Accreditation honor.

Dr. Arab O'Malley is a proud Haligonian and life long resident of Halifax. She graduated from St. Mary's University with her BSC and was awarded the University Gold Medal for highest standing in her graduating year. She proceeded with her postgraduate studies at Dalhousie University where she received her Doctor of Dental Surgery and the W.H.H Beckwith Award for greatest proficiency in Operative Dentistry.

At her clinic in Clayton Park Halifax, Dr. Arab O'Malley performs a full spectrum of dental services, where she incorporates a blend of artistic sensitivity and technical ability, ranging from cosmetic bonding to full mouth reconstruction. She has applied new technologies and scientific applications to her practice, which enables a focus on non-invasive restoration of esthetics and attrition. Congratulations to Dr. Arab O'Malley on her exceptional accomplishment.
