

Dental Benefits or Self Pay

Welcome to Prairie Rose Family Dentists!

We appreciate you choosing us for your dental care and look forward to providing you with exceptional service.

As part of providing great service to our patients, we want to take this opportunity to clarify our office guidelines whether you are a patient who has dental benefits or are self pay.

“I have Dental Benefits”

Great! We will bill to any insurance company however it is extremely important that you are familiar with your benefit plan prior to having services rendered.

Some insurance companies provide benefits to the dentist or your choice. Others have specific dentists in their “network” that you must see in order for your plan to cover you. This again is something to check out before hand to insure you are getting your maximum benefit at our office. If we are “out of network” for your plan, you might find that your dental insurance won’t cover any of your charges which then will become your responsibility to pay.

It is important to check your dental benefit plan on a yearly basis as those benefits may have changed from the previous year. We do our best to estimate what your insurance may pay however it is ultimately your responsibility to know your plan. Keep in mind this is an estimation of benefits and not a guarantee of payment.

“No, I don’t have insurance”

No problem! We do have options available for interest free financing through Care Credit or Wells Fargo Financial*. Otherwise, payment is due on the day the service is rendered.

We strive to provide you with high quality dental care at an affordable cost and look forward to exceeding your expectations.

The Prairie Rose Family Dental Team

***Financing available to those who qualify based on the creditors guidelines.**
