

Photo and Video Consent

First visit photos are taken automatically for our computer. We also take a "fun picture" with the doctor and your child together that will be emailed directly to you. This is so your child remembers Dr. Eryn or Dr. Maribel 6 months later. (It's also fun to put in the baby book)

This consent is for occasional "candid" photos of your children taken in the office to post on our picture boards in the waiting area. We also may post photos or videos to our Facebook page and/or website to promote great dental visits and education.

We would not include patients name in these posts but you are welcome to look at them and tag them if you would like to.

Photos or videos taken for social media purposes and on the waiting area boards are optional and are never shared. Please sign below to consent or opt out for such pictures and/or videos.
