

FINE DENTISTRY

SABINE A. PURPS, DDS, APC

Dear Moms and Dads,

October 19th, 2009

Halloween is coming, and normally that's a scary time, especially for a dentist because of all of the candy your kids will eat. However, this year will be different. Have you ever wished that the day after Halloween that your kids' sacks full of candy would just disappear? Well, now it can, and this is something that you, we and Yes, even your kids will be very excited about! This year we'll buy the candy back from your kids.

This is no Trick! FINE DENTISTRY presents:

OPERATION. - SWITCH WITCH

Sure, they can have a few treats on Halloween night and even keep some more for later in the week. But we'll take the rest and pay them for it! FINE DENTISTRY will give your children \$1 and a toothbrush for every pound unopened hard candy. When you donate, you will also be entered into a raffle for cash and other prizes!

And here is the best part. The candy will be shipped to our courageous troops deployed overseas. Our servicemen and women are spending their Halloween supporting us so we figured we return the favor. And help defend against tooth decay in the process.

MONDAY NOVEMBER 2ND 2009, Dr. Sabine Purps of Fine Dentistry in San Diego, CA will be holding the **FIRST ANNUAL CANDY FOR CASH EVENT IN CONJUNCTION WITH THE NATIONAL "OPERATION GRATITUDE" EFFORT.**

DROP OFF POINT LOCATION: 1764 San Diego Ave Suite #130, from **3:30 - 6:30**, children can exchange their bags of candy for cash and other goodies while supporting the troops and less fortunate children overseas.

Global sugar consumption for kids increases by about 2% annually and currently sits at 50 million tons per year, which means parents need to be very watchful now more than ever before. Too much candy can lead to hyperactivity and weight gain, as well as cavities or worse. In some cases, the wrong types of candy can also lead to broken teeth and damaged braces.

We completely support dressing up, going out, having fun, and yes, even eating some candy. But after picking out the best of their stash, your kids will probably have about 10 pounds left, and nobody needs that much candy! Except maybe the troops.

Sincerely,

Dr. Sabine A. Purps, (Sebastians mom KD)
