### **REVERSE OSMOSIS SYSTEMS OFTEN DELIVER WATER HIGHLY CONTAMINATED WITH BACTERIA**

If you have a Reverse Osmosis system in your home for drinking, it may be delivering highly contaminated water! Yes, RO systems can deliver very pure water in terms of removing contaminants like minerals, sediments, and heavy metals like Iron, Mercury, Lead, Arsenic, etc. RO systems make water taste better and eliminate unsightly suspended solids like sand. These systems also are highly efficient in removing the Chlorine disinfectants used in municipal water supplies, and without extra steps being taken to sterilize the water at the faucet, the lack of disinfectants results in highly contaminated water.

Recently, the Texas Institute began delivery of the most advanced home water purification system on the world-wide market, the BIOLUX Dual Ozonated Water and Hydrogen Fountain unit. Ozonated water is most effective sterilant available. Installed after a good RO system, the Ozonated water will ensure delivery of pure, sterile water. Ozone water has several disinfecting and bactericidal applications in daily life: hand-washing, tableware, household utensils, knives and forks, bowls and chopsticks, cutting boards, dish rags, towels, as well as baby's pacifiers, feeding bottles, and diapers. Ozonated water is instantly effective in disinfecting C PAP hoses and masks. Mopping floors with ozonated water disinfects floors with no chemical residue. Wetting cleaning and dish rags allows simultaneous disinfection of both hands and surfaces. There is no rival to this cleaning aid that also leaves no odor and no residue.

The Biolux unit also offer a choice of Hydrogen infused water for drinking purposes. Over the last decade, the Japanese have published volumes of research supporting the healthy benefits of Hydrogen. Right, the smallest compound available, H<sub>2</sub> gas. Drinking Hydrogen infused water can have far reaching implications for you, your health, and your loved ones. The volume of peer reviewed, and published research has documented more than 170 human immune related diseases that are positively affected by simply drinking Hydrogen water. If you have arthritis, diabetes, or any common immune disorder, you most likely will benefit from drinking Hydrogen infused water. Now you have a choice of a drink that can have a profound effect on improving your health.
