

“When I expressed my desire to Dr. Pominville for “straight front teeth” I couldn’t believe what he could do. I was tired of people asking if my front tooth was loose or having to keep my hand in front of my mouth when talking. The population with naturally straight teeth cannot understand how I felt, nor, my strong desire to obtain that goal. I thought there had to be braces and years of wearing, which I had no desire at my age.

I was amazed when Dr. Pominville presented the visual aid of my study model complete with straight teeth. I was hooked because “my dream” results were right in front of me.

The few visits required to make “this dream” occur astonishes me. No braces! Virtually painless in my experience. Dr. Pominville and staff were absolutely fabulous and encouraged me all the way.

I will NEVER forget when the crowns were in place and Dr. Pominville gave me a mirror while I was still in the chair. I smiled and a HUGE lump came in my throat and tears filled my eyes. It was even more awesome that I could ever imagine!

A year later and I’m smiling more than ever! Thanks to Advanced Dental Care for this transformation!” - Wanda
