

What do Dentists and Physicians need?

- A place to refer complex patients who require multi-disciplinary care
- A place to refer patients who need expedient care before chemotherapy, radiation or other surgery that might be impacted by oral health
- A place to send patients whom the office is not equipped to manage

How we help.

- The office is experienced in medical presentations that require expertise and time for a proper and safe workup for care
- We provide a multi-disciplinary team for managing the patient and family
- We solve problems
