

## Attention: To all our patients

If you have Insurance, your ESTIMATED portion is due when services are rendered.

Patients who carry dental insurance understand that all dental services furnished are charged directly to the patient and that he or she is personally responsible for payment of all dental services. This office will help prepare the patients insurance forms to assist in making collections from insurance companies. However, this dental office cannot render services on the assumption that our charges will be paid by an insurance company.

If you do NOT have dental insurance, payment is due at the time of service. We accept cash, checks, Visa, Mastercard and American Express.

All full and partial dentures, crowns, veneers and fixed bridges REQUIRE 50 % down payment at the first visit and the BALANCE upon delivery.

In consideration of the professional services render to me I agree to pay, therefore, the reasonable value of said services to said Doctor, or his assignee, at the time services are rendered.
